113-115 West CentralACTIVITIES RESUMED  
AT SEVEN LAKES  
OIL FIELDS

Bad Roads Made Further  
Work Impossible Until Re-  
paired; Graded Highway  
Is Built.

Gallup, N. M., Oct. 24.—After a considerable delay in general activities at the Galloway oil fields that was caused principally by the defective road beds over which several parties were endeavoring to convey the heavy drilling outfit. Activities have again been resumed and there are three rigs now in actual operation on the fields.

It was necessary to build a new nearly 200-foot road to the surface from Chaves to the oil fields in order to move the heavy machinery and traction engines over the ground. Thomas Lenden and Morris Pease have been away from the oil fields two months superintending the construction of the road work. One of the machines on the field is operating on Sec. 5, Twp. 35, range 6, and the other on Sec. 12, Twp. 38, range 12 west. A third machine is located a few miles northeast of the jakes.

The Tulsa oil company, which is engaged primarily in Abiquiu, men are hurrying to get machinery on the ground in order to get started on the deep well for which they have closed a contract. They expect their machinery to arrive in a very short time. With the recent improvements on the road to the wells, with this heavy material will be less difficult and after the outfit arrives it will be in actual operation on the field.

Considerable experimenting has been done at the Tulsa-Briar well, and these experiments have proved a great encouragement at every movement. Constant pumping has been carried on at the well for several consecutive days and the well is now producing about twenty barrels of a high grade oil per day.

The large oil concerns of various parts of the country are still sending representatives to the field, some of whom sending their men back for the

third or fourth time. Each visit impresses them more and more that here is a great possibility for setting a large pile of gold off. A deal has just been closed by the Brooks Brothers association whereby a development company of such little cash has passed control of ten thousand dollars worth of land and actual development work will begin just as soon as machinery can be taken to the field.

W. H. Flomming, a representative of the Houston oil company arrived in Gallup early this morning. He has had investigations at that place for the past four months. Upon visiting the drilling oil fields he was favorably impressed with the situation that he informed the company that it would be to their interest to locate located at a point in immediate proximity to the field. He was gratified to find that this is where he has established headquarters. He arrived here Tuesday and the following day left for the field where the department people have located on eight sections of land. When interviewed Mr. Flomming made the following statement: "The people of Galloway and the surrounding community little realize what prodigious importance this oil field is to them. I was at Tulsa, Oklahoma, and at Beaumont, Texas, when either was not a big station and saw them grow to a city of 20,000 in a week. The Galloway fields look better today than the Beaumont fields ever did at any time the great gusher began to flow at that place."

M. Linbeck, who is a practical driller, and has worked in many fields from Mexia City to Bakersfield, California, went to the Galloway oil field and set up a No. 25 Star drilling outfit for the Galloway association and now has a contract with that company to do their drilling. He was so well pleased with the location upon his arrival there that he located for himself there that he located for himself.

P. B. Evans has just returned from the field where he has made further locations for several parties.

Pickens and Comer company have a No. 25 Star drilling outfit on the field. A much larger drill, a No. 28 star drill, has been unloaded at Chaves by A. G. Craig of Douglas, Okla. He has a contract with the Seven Lakes Oil company.

REPUBLICANS OF  
CURRY TO WIN

Ticket Nominated at Clovis  
Will Make Many Votes for  
Party of Lincoln; Harmony  
at Convention.

CLOVIS, N. M., Oct. 24.—The Republican county convention in a harmonious manner nominated the following ticket, which is expected to add strong votes for the party of Lincoln and Roosevelt.

Judicial district—Judge, Oscar C. Akers, prosecuting attorney, M. A. Quinn.

County—For senator, George Stingley, Clovis; for county clerk, C. P. Doudt; for treasurer, M. W. Woodward; for coroner, J. L. Franklin; Melrose; for commissioners, District No. 1, G. E. Lewis; District No. 2, F. T. Arnold; District No. 3, W. H. McDonald; for state auditor, H. E. Raynes.

**DEAFNESS CANNOT BE CURED** by local applications, as they cannot reach the missed portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

BIG CROWD CERTAIN  
FOR THE SAWDUST  
RING ATTRACTION

Frederic Thompson, Wizard of  
Stagecraft and Effects.  
Does Best Work in "Polly of  
the Circus."

"Polly of the Circus" will be the attraction at the Elks theater tomorrow night and everything indicates the largest house of the season thus far. The circus is a familiar and standard institution of American life. In the country districts it comes once a year, usually followed by the one exciting event of the summer, which interests come from near and far. And the inner life of the circus is a little like a show in itself, though it is the animal life of the exhibition which is the animal life of the circus, might be. Margaret Mayo's gender little play, "Polly of the Circus," permits a glimpse into the members of the circus, it is through a window whose panes are decorated with romance, but the members of the sawdust ring and the dressing room are as well endowed and have their qualities. Frederic Thompson, wizard of stage craft and his family bring up the animal life of the circus, might be. Margaret Mayo's gender little play, "Polly of the Circus," permits a glimpse into the members of the circus, it is through a window whose panes are decorated with romance, but the members of the sawdust ring and the dressing room are as well endowed and have their qualities.
